You can get the proper forms at your local post office or other locations listed in your phone book. You can also visit: http://travel.state.gov/passport/get/get_840.html. Always remember to carry a separate copy when you travel abroad and be sure you have identification with you at all times. Please allow 6-8 weeks for standard processing. Applications can be expedited as quickly as one week but come with a hefty convenience fee easily over \$100, on top of the normal fees.
